1856	21.449	2.011
1857	24,290	2,841
1858	26,210	1,920
1859	21,454	2,211
There are also u	ore than 6	on miles

of railroad in active progress in the United States, at the present time. In the absence of official statements, it is impossible to give the exact cost of these railroads, but the amount will excood \$1,000,000,000, the greater part of which has been expended in the last ten

The receipts from traffic on them during the present year will reach \$100, 000,000, and the expenses of transportation will amount to \$60,000,000, making the net receipts \$40,000,090.

The number of persons employed on these railroads is 100,000 men, representing a population of half a million souls,or Groceries, &c., &c. one-sixtieth of the whole population of the United States. Their yearly wages equal \$45,000,000.

There are 6,000 locomotive engines in use in the United States, running annually more than 10,000,000 miles, and requiring 2,500,000 cords of wood, sufficient to clear a forest of 62,500 acres every year.

There is now in operation, in the United States, a mile of railroad to every AS REPRESENTED. thousand inhabitants. In England the proportion is one mile to every 2,500 inhabitants, and in all Great Britain one mile to every 2,000 inhabitants.

The number of square miles of teri-tory to a mile of railroad in the United States is 56; in Great Britain, 14.

construction of railroads in the United States, since 1850, has averaged 888,000 000, or very nearly double the expenses of the national government for the same CONFECTIONARIES. period. The gross annual receipts on our railroads have surpassed the amount of revenue derived from customs in that time.

#### IMPROVEMENT OF TIME.

formed an amount of business every min-on the most reasonable terms. All orders promptly to which filled company improvers of attended too. time with atter astonishment. He knew not merely the great outlines of public business, the policy, and intrigues of foreign courts. But his eye was on every part of the British dominions; and searcely a man could move without his knowledge of the man and the object. friend one day called on him when Premier of England, and found him down on his hands and knees, playing marbles with his little boy, and complaining bitterly that the rogue would not play fair; gaily adding "that he must have been corrupted by the example of the French! The friend wished to mention a suspicious looking stranger, who for some time had taken up lodging in London. Was he a spy, or merely a private gentleman?— Pitt went to the drawer, and took out some scores of small portraits, and holding up one which he had selected, asked, "Is that the man?" "Yes, the very per-"Oh, I have had my eye upon him from the time he stepped on shore!" All this was accomplished by a rigid observance of time; never suffering a moment to pass without pressing it into service. No one will try to improve his time, un-No one will try to improve his time, un- of our own or Eastern manufacture: less he first be impressed with the necessity. Remember that at the very best Ties, calculation we can have but a short time All warranted to be of the best stock and manufacin which to learn all and do all that we ture. Misses and Children's shoes of all varieties. accomplish in life .- Todd's Student's Locathor & Findings,

#### Gov. Willard.

ebration at La Fayette, Indiana, at which Gov. Willard was present and Hon. Thomas Corwin delivered the address, or rather made a stump speech, in which he alluded to the repetition of the usual sentiments of 4th of July orators, that every man is born free and equal and that each is created a sovereign and emperor is himself. Mr. Corwin said this was what was often told the people by demagogues and asked Gov. Willard, who was on the stand, whether it was not so. The Govener replied he believed it was, he had heard it in 1840. The happiness of the retort created much merri-

CHEATING THE PRINTER.-We notice that the walls of the Post Office, and other buildings around town, are plastered over with written notices of "Lost," 'Found," "Wanted," For Sale," etc, etc, etc, If the men who post the most of them should get married-or die-not used as synonymous terms-they would want the printer to bestow a column of enlogy upon their generous deeds while living. The public likes to have papers to advocate its interests, but thinks the printers can make good papers without patronage As a Freight Route this excels all others and They ought to - they are used to it .-Michigan Argus.

NICE CALCULATION.—It has been calculated that the hairs on the tip of a dog's tail of the average length of thirteen inches (tail, not hair) are made to traverse 26, 433 miles by the simple act of wagging during the ordinarily happy life of nine years two months and eleven days which is mean life-time of a dog.

It's little troubles that wear the heart out. It is easier to throw a bomb shell

It's establishment of this communication is of importance to the Traveling Public. Saginar and Huffalo are now only 20 leans travel from each linear travel from each either, without the inconvenience parsengers are subjected to on other Route.

The New Route is a most pleasant one—Goderich is model as a very desimble place for pursons in search of health—it is beautifully estimated on the River Maiting, and immediately adjoining the Harber on Lake Huron. On heard the Kaloolah a comfortable night's rost may be establishment of this communication is of the A T S & C A P S.

Among which are 20 dozen of MOHAIR, PLUSH & CLOTH CAPS, worth from 50 cents to \$2. 25 dozen of Lake Huron. On heard the Kaloolah a comfortable night's rost may be establishment of this communication is of the A T S & C A P S.

Among which are 20 dozen by the North Route is noted as a very desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route is an avery desimble place for pursons in search of the New Route i ted that the hairs on the tip of a dog's tail oth during the ordinarily happy life of nine is mean life-time of a dog.

ont. It is easier to throw a bomb shell than a feather, even with artillery. Forty little debts of a dollar each, will cause you more trouble and dunning than a big one of a thousand.

When you negotiate for a house having all the modern improvements, you will generally find that a mortgage is one of J. K. GOODING, Agent, Saginaw.

He who gives pleasure, meets with it. ndness is the bond, of friendship, and e hook of love; he who sows not, reaps

MACHINE POETRY — A LA HIAWATHA
Here's the place to to buy your torgery,
Buy your vests and buy your treeches,
Buy your vests and fancy fixings,
Buy your caps and buy your chapeaux,
Buy your garments big and little,
Hat as high as any steeple,
Or as low as is the bayon,
All goods sold as low or lower than the lowest,
Retail dealer in this region,
Dares to sell his traps and plunder,
Opposition, "stand from under?"
Marks is he as who can paddile
His own good ship, his own staunch hooker,
Boots and shoes for gents and ladies,
Children and youth and little babies,
Marks has, and he is bound to sell 'em
Cheaper than the other traders,
Who can only barely, waddle,
While he'll 'just get up and kadaddle."
Work to windward of the squadron,
For he carries piles of canvas,
And 'goos in" upon his muscle.
Come along or send your orders
For goods that came by the Kaloolah,
Goods that came y-i-a Goderich,
That's the route to bring you freight on,
Always sound and always certain,
Far across the raging Huron,
But the God of mavigation Far across the raging Haron, But the God of navigation Likes the style of the Kaloolah, Likes her owners and her esptain, And he blesses every package, Every box and every barrel, That comes that way, most truly. But the muchine is quite unruly, So I'll blow my whistle and Shut off

Buy your garmant.

Bush and services to advance.

Every number of the SCIENTIFIC AMERICAN contains sixteen pages of reading matter, abandantly illustrated with from eight to ten Escravinus—all of which are expressly engraved for this publication.

All the most valuable patented discoveries are delineated and described it its issues, so that, as respects inventions, it may be justly regarded as an illustrated Repertory, where the inventor may learn what has been done before him in the same field which he is expanding, and where he may bring to Reports of American have been done before them in the same field which he is expanding, and where he may bring to Reports of American have been done before them in the same field which he is expanding, and where he may bring to Reports of American have been decided and described the same field which he is expanding and buy your chapegus.

Buy your chirst and fancy fixings,
Buy your chapegus.

learn what has been done before him in the same fleid which he is exposing, and where he may bring to the world a knowledge of his own achievements.

Reports of American Patents granted are also published every week, including Official Copies of all the Patent Claims are furnished from the Patent Office Records expressly for this paper, and published in the SCIENTIFIC AMERICAN in advance of all other publications. The contributors to the SCIENTIFIC AMERICAN in advance of all other publications. The contributors to the SCIENTIFIC AMERICAN are among the most eminent scientific and practical men of the times. The editorial department is universally acknowledged to be conducted with great ability and to be distinguished not only for the excellence and truthfulness of its discussions, but for the foarlessness with which error is combated and false theories are exploited. and false theories are exploded.

but for the fearlessness with which error is combated and false theories are explosited.

Mechanics, Inventors, Engineers, Chemists, Manufacturers, Agriculturists, and people in every profession of life, will find the SCLENTIFIC AMERICAN to be of great value in their respective callings. Its counsels and suggestions will save them hundreds of deliars annually, besides affording them a continual source of Knowledge, the value of which is beyond pecuniary estimate. Much might be added to this Prospectus, to prove that the SCIENTIFIC AMERICAN is a publication which every Inventor, Mechanic, Artisan, and Engineer in the United States should patronize; but the publication is so thoroughly known throughout the country that we refrain from occupying further space.

The form of the journal, it will be observed by the readers of the SCIENTIFIC AMERICAN, is somewhat changed from what it formerly was, so as to render it better adapted for binding and preservation; and instead of eight pages in each number as before, it contains sixyren, and in a completed yearly volume the number of pages will be doubled to S32, or 416 more than heretofore.
